

YOUR CAREER, YOUR CHOICE!

‘Be what you want to be’

Career Transition & Success Stories

Craft your career path with 360DigiTMG

360DigiTMG is one of the finest global training destinations dedicated to the development and education of the path-shapers of tomorrow. We are recognized internationally for providing outcome-based training in various cutting-edge technologies and empowering our students to explore global opportunities in the digital arena. Our stellar faculty has trained over 50,000 professionals across the globe and we have to our credit over 30 Franchise learning centers all over the world delivering world-class training in emerging technologies.

The curriculum is designed and delivered in collaboration with top-grade universities and organizations like SUNY, Microsoft, Nasscom, RapidMiner, and others. We aim to provide a world-class learning experience in the latest technologies with innovative and engaging training methods and endeavor to hone skills in our students who not only specialize in disruptive technologies but are also competent to shoulder leadership responsibilities in the 21 century.

Our Hallmark

Global
Collaborations

New tools to
facilitate Upskilling

Dynamic and Industry
Relevant Curriculum

Empowerment through
Live Projects

Guidance and Career

100% Job assistance with
resume building and mock
interviews to find the
perfect job

Technical support from the
faculty for your first
project on the job

Excellent placement
records with industry giants
like KPMG, EY, Deloitte,
PwC, etc.

Generous support to
students of
exceptional merit

Material and Delivery

- An innovative, advanced, and dynamic curriculum that clearly states the objectives and learning outcomes of the course
- Seamless integration of modules with the industry requirements
- Session delivered using a blended approach that challenges your thinking and develops analytical skills
- A real-world working environment with hands-on training on live projects.

Support Services

A mentor to provide guidance and support in the completion of all the projects and assignments

24x7 support from our trainers through online forums

Real-time projects supported by various industry clients

Internship Program under faculty supervision

Interview Programs

We have also ventured into engaging platforms (Digital Media, Print media, and Electronic media) to educate aspirants about disruptive technologies.

Our CEO and Managing Director Mr. Bharani had been invited for an exclusive live discussion on one of the top news channels, NTV, to discuss and give his insights about the changing market trends and the various career options students can venture into. He also highlighted how 360DigiTMG has substantially contributed to helping students achieve their dreams and shape their careers in the space of new technologies as professionals and entrepreneurs in a global context.

Awards & Accolades

360DigiTMG has all the bells and whistles one requires to match the current market trends in new technologies. It is the efforts of our students and faculty that we have been duly recognized nationally and internationally.
